

**VITRA INDUSTRIES PVT. LTD.**  
**MANUFACTURERS OF STAINLESS STEEL PIPES AND TUBES**

# Company Profile

Based in DADRA (D&NH, India), **VITRA INDUSTRIES PVT. LTD.** Is a key manufacturer in stainless steel pipes and tubes, With our dependable technological knowledge and vast experience, we cater as well as meet particular need of our industrial / commercial customers. All our pipes and tubes are known for quality standards. The stainless steel welded tubes and pipes manufactured by **VITRA INDUSTRIES** are made from superior quality stainless steel strips that are sourced from trusted vendors (**JINDAL**), which ensure a high level of excellence. The strips are converted into tubular form and then welded using tungsten inert gas (TIG) welding technique. All our products are well buffed (as per customer requirement) and dimensional finish. All our finished tubes and pipes are thoroughly tested for quality before packaging them for dispatch. With our capability to offer customized solutions, we have served the requirements of various industries across the nation. Our client base is our main priority. We maintain relations with our clients by fulfilling their requirement timely. Due to our tremendous expertise in this field, we have marked our presence in the national market. Receiving of frequent orders from our existing customers, demonstrates our initiatives of customer satisfaction.

## Our Vision

To achieve excellence and furnish enduring quality in Vitra's current product line up and the one that will be established in near future.

To become prominent in the field of mechanical works and serve global markets with nonpareil quality and delivery of the best in the industry.

## Our Mission

To deliver high standard products through science and advanced techniques and to become one stop solution for our clientele.

- Established in the year 2011, “**VITRA INDUSTRIES**” is engaged in manufacturing and supplying of **Specialty Equipment & Furniture for Plastic Industries, Pharmaceutical, Hotel, Commercial, and Kitchen & Hospital.**

All our products are acclaimed for their excellent finish, sizes and straightness for smooth operation.

A well laid infrastructural set up with latest technological advancements has enabled us to meet the voluminous demands of customers across the globe. We have a team of skilled professionals with ample industrial experience who carry out the whole manufacturing process.

Accentuating on quality and streamlining of manufacturing process, we stay ahead of our competitors by providing our clients with one stop solution for their requirements.

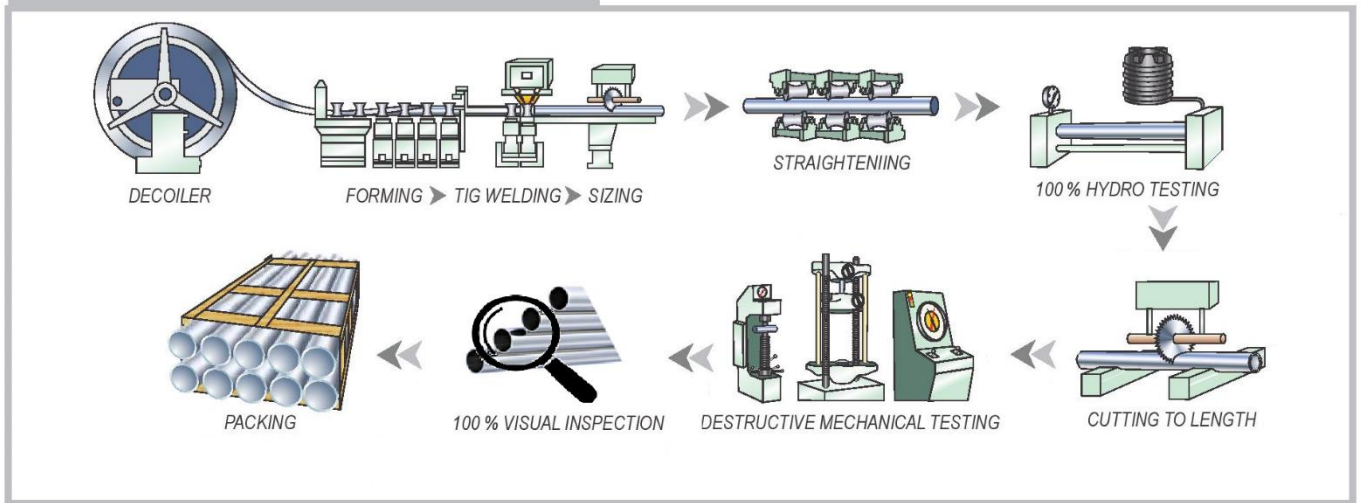

➤ **Our state-of-the-art infrastructure includes:**

- 3 TIG welding lines
- Bead rolling machinery
- Rotary & roller swaging machines
- Tube finishing lines
- Tube straighteners, end facing, cut-to-length facilities, satin finishing, mirror polishing, and various destructive and non-destructive tests

Our progressive infrastructure enables us to offer operational excellence, environment compliance, comprehensive processing, and stringent quality checks to ensure that our customers receive nothing but the absolute best in terms of quality, value, and delivery time.
